

# HAND-ON INDUSTRIES PTY LTD

DESIGN PROTOTYPE MANUFACTURE

At HAND-ON Industries Pty Ltd, we specialize in the manufacture of precision components in metallic and non-metallic materials.

We supply components in the quantities that you require from 1 to 1,000. Small quantities are not a problem.

Components can be manufactured from sample, engineering drawings, CAD data or your specific technical requirements.

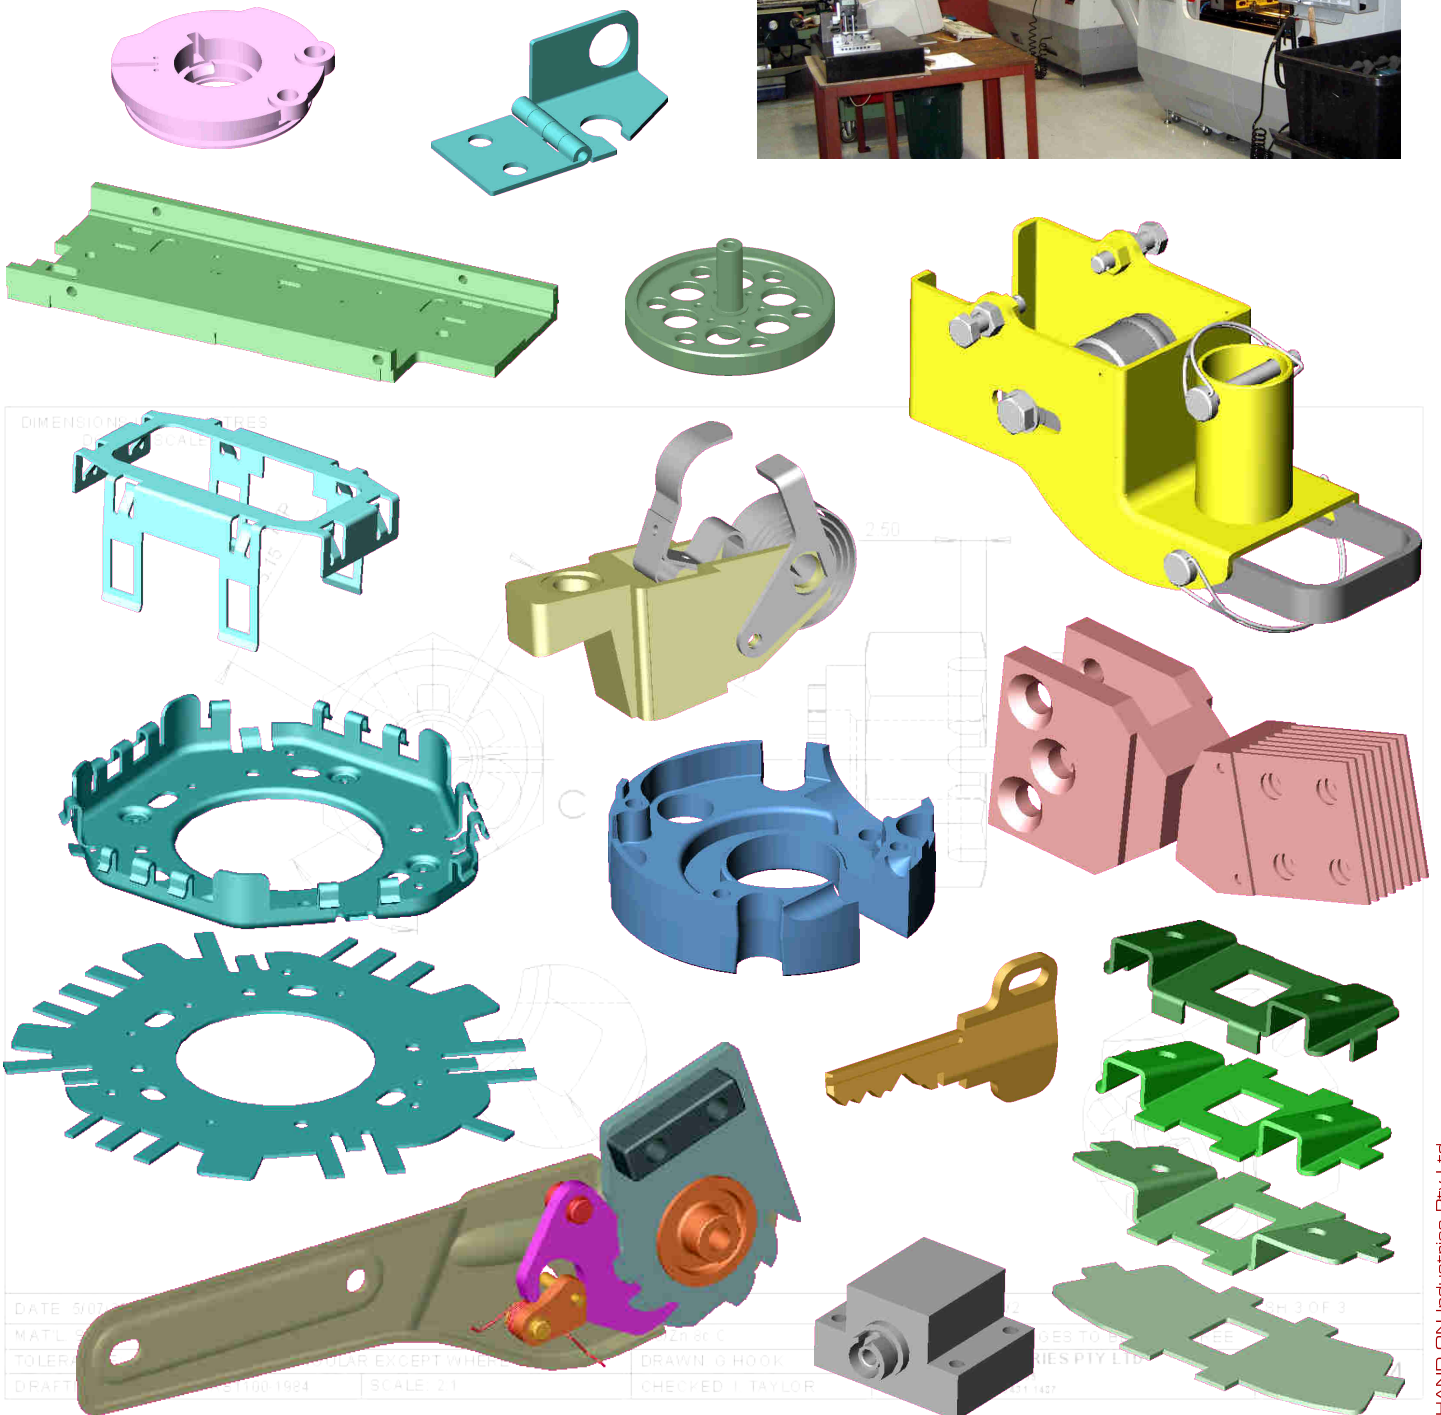

**SolidWorks** Data formats in order of preference - SolidWorks, Parasolid, Step AP203/214, IGES.
